

## **PUBLIC ANNOUNCEMENT**

The Controller & Accountant General's Department in Accra, Ghana, has informed the Embassy that in October 2016, it conducted an exercise to validate CAP 30 Pensioners at Home and Abroad with the aim of ensuring that only legitimate Pensioners are kept on Government's payroll.

To ensure that all Pensioners were given the opportunity to be validated, a mop up exercise was undertaken in November 2017 after which names of Pensioners who could not avail themselves to be validated were deleted from the payroll.

The Embassy therefore wishes to bring this information to the attention of all Ghanaian Pensioners living in Germany who fall into this category and to request all affected persons to contact the Embassy for an update of their records as soon as possible.

Thank you.
